

Limited Edition (LE)

**DEFENSIBLE, CENTRALIZED  
 DATA TRACKING AND LOGISTICS  
 FOR ELECTRONIC DISCOVERY**

Gone are the days of managing the electronic data source lifecycle via a spreadsheet. Legal teams need never again worry about outdated, incomplete or inaccurate information that could lead to missteps in task completion. **Evidence Optix<sup>®</sup> LE** minimizes the risk and exposure of outdated collection and tracking methods, ensuring that preservation and collection documentation is comprehensive, up to date, and centralized.

*Say goodbye to the spreadsheet.  
 Say hello to real-time data source tracking.*

**TEAM COLLABORATION**

Bridge the gap between in-house corporate legal, outside counsel, IT resources, and vendors to streamline logistics and documentation.

**DISCOVERY LIFE CYCLE**

Manage data sources as they move from preservation and collection through review, production, and eventual disposition.

**COLLECTION MANAGEMENT**

Track collection details based on data source type and preservation data points, along with chain of custody to ensure defensibility.

**AUTOMATED REPORTING**

Generate and schedule reports to provide status updates and data metrics for all team members.

**HISTORICAL RECORD**

All decisions and data sources are tracked, providing documentation necessary for future reference and risk mitigation.
